

Commands for Inserting Values into Tables

*The following are examples. All instances of the insertions can be found in the source code.

DEPARTMENT

```
INSERT INTO Department (department_number, department_name) VALUES (1, 'Computer Science');
```

COURSE

```
INSERT INTO Course (course_number, course_name, department_number, semester, academic_year) VALUES (1, 'Database Management', 1, 'Spring',
```

CATEGORY

```
INSERT INTO Category (category_id, category_name, course_number, weight, num_assignments) VALUES (1, 'Homework', 1, .10, 1);
```

STUDENT

```
INSERT INTO Student (student_id, last_name, first_name) VALUES (1111, 'McIntosh', 'Danielle');
```

ENROLLEE

```
INSERT INTO Enrollee (enrollee_id, student_id, course_number, grade) VALUES (2222, 1111, 1, 10);
```

ASSIGNMENT

```
INSERT INTO Assignment (assignment_id, assignment_name, course_number, category_id, max_points) VALUES (1, 'Assignment 1', 1, 1, 10);
```

ASSIGNMENT_GRADE

```
INSERT INTO AssignmentGrade (grade_id, assignment_id, enrollee_id, assignment_grade, grade_points) VALUES (1, 1, 2222, 100, 10);
```
